- Q.1 MCQ. (1X 10=10)
1. Bubble point is done to determine: (CO3)
a. Surface tension of liquid b. Viscosity of liquid c. PH d. Volume of liquid
 2. Unit for surface tension is: (CO3)
a. Dyne/meter b. dyne/cm c. Poise d. None of the above
 3. Surface tension is _____ (CO3)
a. A capacity factor b. An extensive factor c. An Intensive factor d. A tolerance factor
 4. Pair of liquids that are miscible in all the proportions is known as _____ (CO3)
a. Binary liquids b. Polar liquids c. Concentrated liquids d. Saturated liquids
 5. Wetting ability of a vehicle can be detected by observing the: (CO3)
a. Critical angle b. Angle of repose c. Contact angle d. Interfacial angle
 6. High permeability and Low solubility of drugs comes under _____ (CO1)
a. Class-I b. Class-II c. Class-III d. Class-IV
 7. The solubility of gas is directly proportional to partial pressure of gas is _____ (CO1)
a. Dalton's Law b. Henry's Law c. ideal gas law d. Boyle's Law
 8. Solubility of most gases usually _____, with increasing in temperature. (CO1)
a. Decreases b. Increases c. First increases and then decreases d. None of the above
 9. Ethanol is added to increases the solubility of poorly soluble drugs by acting as a (CO1)
a. Solvent b. Solubiliser c. Surfactant d. Co-solvent
 10. Solubility of solid in liquid is _____ proportional to temperature. (CO1)
a. Directly b. Indirectly c. Same d. None of the Above
- Q. 2 Answer any ONE of the following (10X1=10)
- A) Explain any two methods for determination of Surface tension of liquid (CO3)
 - B) Explain different factors affecting on solubility of solid in liquids (CO1)
- Q.3 Answer any TWO of the following (5 X 2=10)
- A) Explain the mechanism of Solubility of Solute in solvent. (CO1)
 - B) Discuss in detail Spreading Coefficient. (CO3)
 - C) State & derive the equation of Raoult's law (CO2)

 → Solubility substance - Solubility is can be expressed quantitatively. Solubility of it defined as in a numerical term.
 Solubility of substance is defined as amount of solute dissolved in specific amount of solvent in specific time with its specific temperature.
 Solubility of solid in liquid - Solubility of solid in liquid is directly proportional to the its temperature.

Q.1
 1) Theory of fluorescence :-
 Every atom consist of number of proton, electron and neutron. In atom electrons are revolving around the nucleus of atom. when a molecule is placed in the electromagnetic radiation field it absorbs the electromagnetic radiation and goes to the high energy state, where it is highly unstable so for getting stable it loses its energy by emission due to which it comes to ground state.

Fluorescence is phenomena in which, the

Instructions

1. Academic diary is an important document and utmost care should be taken while making entries. It should be free from overwriting, disfiguring and incompleteness. Corrections, if any, should be individually initialed.
2. If a subject is being taught by more than one teacher, the individual workload should be recorded in the teaching load table.
3. Attendance should be marked in the relevant column noting the date and the no. of the class for uniformity of the attendance record. The entries are to be made as cumulative numerical.
4. Topic/s covered in each class should be recorded in the space provided.
5. At the end of every month, the staff shall send the cumulative attendance report, through the HOD, to the academic in-charge. The in-charge, in turn, will compile all the reports and submit it to the Principal. The Principal will arrange to intimate the parents of such students, whose attendance is short of the prescribed minimum.
6. At the end of the semester, the percentage of attendance for each student should be worked out and entered in the relevant column. The academic diary should be submitted to the Principal through the HODs along with a cumulative attendance report for the semester.
7. The academic in-charge will prepare the consolidated report of all the subjects at the end of the semester for each class.
8. The academic diary should be handed over to the HOD, whenever the staff member goes on long leave or when he / she leave the college.

1. Tablets

Introduction, advantages & disadvantages, types of tablets.

Formulation development: Preformulation of drugs and additives, introduction to tablet additives, need of granulation, mechanisms, manufacturing processes and equipments for wet granulation and dry granulation processes, characterization and evaluation of granules, mechanism, manufacturing process and equipments for Direct compression technique, Tablet compression machines, types of press tooling, manufacturing problems and remedies thereof, evaluation of tablets as per IP.

Tablet Coating: introduction and concept of tablet coating, types of tablet coating including Sugar, film and enteric coating, materials, processes employed and equipments for tablet coating, manufacturing problems during tablet coating and remedies, evaluation of coated tablets

2. Capsules

Introduction to capsule as a dosage form and concept of size selection of capsules

Hard gelatin capsules: Preparation of hard gelatin capsule shell, standards and defects thereof, Formulation, filling, processing and capsule filling equipments, problems in capsule filling and remedies thereof, in-process quality control and quality control parameters.

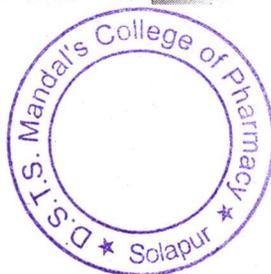

Soft gelatin capsules: formulation and development, manufacturing, processing and equipments, in-process quality control and quality control parameters.

3. Microcapsules/Microspheres (Microencapsulation)

Importance of microcapsule and microsphere in pharmacy, methods of preparation: Phase separation, coacervation, multi-orifice centrifugal methods, spray congealing, polymerization and Air suspension technique, pan coating and other techniques, evaluation of microcapsules.

4. Factory Layouts

Objectives, Locational analysis, types of layouts, Factors influencing layouts

1.1: Curricular Planning and Implementation.

Practical- Syllabus

1. Tablets
 - Preparation and evaluation of tablets by direct compression.
 - Preparation and evaluation of tablets by wet granulation.
 - Preparation and evaluation of tablets by dry granulation.
 - Evaluation of granules- Carr's Index and Hausner's ratio.
 - Evaluation of Tablets- Hardness, Friability, Weight variation, Tablet porosity, Dimensions, Disintegration time, Dissolution time.
2. Capsules
 - Filling of powder/granules in hard gelatin capsule and its evaluation as per official compendia
3. Tablet Coating (Demonstration)
4. Microencapsulation
 - Preparation and evaluation of microencapsulated products.
5. Visit to Pharmaceutical Manufacturing Plant

Course Outcome- Practical

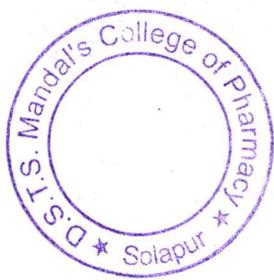

- CO1 - Formulate, label and store granules, tablet, hard gelatin capsules and microcapsules
- CO2 - Perform Q.C. test for granules, hard gelatin capsules and microencapsules
- CO3 - evaluate self prepared products and record the result and conclusion.
- CO4 - Prepare & submit a report on industrial visit.

Dear Sir,

With reference to above subject, we are happy to inform you again that we have implemented PCI rules and syllabus 2014, in Solapur university, with effect from 2017-18.

The Chairman, BOS Pharmacy, Solapur University, Solapur and the university authorities have written to PCI for bringing the balance in the Odd - Even semester workloads within the departments (copy of above referred letter, enclosed). We have been waiting for your positive response to modify the structure of Second, Third & Fourth B. Pharm, keeping the same credits and contents of the curriculum per se.

Since the colleges for the Academic Year 2018-19 have just reopened, we request your kind office to consider bringing a logical and fair balance in Odd - Even semester workloads within the departments on urgent basis. Please note that we are facing serious problems of imbalance leading to difficulty in preparing proposals for approval of posts and consequently for the advertisement and appointments from the university.

We request you to kindly consider and make suitable modifications, or, at least allow the structural modification for respective universities for balancing the workload without disturbing the curricular contents and credits for each semester. Given a favorable fast track decision, the universities shall take further fast track decision with effect from Academic Year 2018-19, to avoid the complications in future.

Kindly take up this issue to solve it in the immediate next PCI meeting, so that with least inconvenience, the modification is practically possible with effect from academic year 2018-19.

Thanking you.

Sincerely Yours,

(Prof. R. Y. Patil)
