Two Days National Workshop

On

A HANDS-ON TRAINING ON EFFECTIVE USE OF ICT IN TEACHING-LEARNING

5th & 6th January, 2019

VISION

"To impart quality pharmaceutical education to cater to the growing needs of the profession of Pharmacy."

MISSION

1. To create conducive learning environment through modern infrastructure.
2. To incorporate the best available practices in teaching, training and research.
3. To develop responsible pharmacists to foster professional growth
4. To make pharmacist a vital member of health care system.

Dakshin Solapur Taluka Shikshan Mandal, Solapur founded in 1976 under the able leadership of Late Shri. V.G. Shivdare, pioneered Pharmacy education in Solapur with the establishment of College of Pharmacy (Poly) in 1980, D.S.T.S. Mandal's College of Pharmacy in 1993 with B. Pharm., the PG and Ph.D. Programmes have also been established under the leadership of present president Shri. Rajshekhar V. Shivdare.

The college has highly experienced qualified faculty who have been producing quality Pharmacists serving the profession all over India and abroad.

About the workshop

Although chalk & board is having its own importance, in current era, use of Information & Communication Technologies (ICT) has become inevitable in teaching-learning. ICT can enable teachers to transform their teaching practices.

Teachers are well aware of the importance of ICT, but the lack of specialized training in effective use of ICT appears to be the hindrance. So this is an effort to train & kindle the interest of the participants in some of the area of ICT.

Objectives of the Workshop:

- To update the knowledge of pedagogic applications of ICT.
- To provide a hands-on training on the development of e-contents and applications of some of the ICT.

Ajita Deshmukh <ajitadeshmukh13@...> 27 Dec at 7:40 AM

To:
DSTS Mandal's College of Pharmacy,
Solapur

Dear Sir,

Thank you for the invitation.
For a one day workshop, the following points have been identified.
Please go through them so that we can take it further with modifications
to suit participants' requirements.

- 1) Copy right and Licensing issues.
Output: Will identify, resolve copyright/licensing issues and use them appropriately.
- 2) Need Analysis for ICT integration in teaching.
Output: Will develop (at least partially if not fully) a teaching plan for a class
- 3) e-content development using Free and Open Source software. (3 are planned, if we face time crunch at least two will be done completely).
Output: E-content of their respective subjects will be developed
All of these will be hands on activities.

Do let me know if this is suitable for you and any further changes required can be mutually discussed and incorporated for the workshop.

Warm regards,
Ajita Deshmukh
Educational Technologist and Consultant for ICT in Education

Comments :- It was nice to talk to students
they were receptive. The students were interactive
but they have to learn and make notes.
Just listening won't make them learn.
